## \*\*\*\* Trial Closure \*\*\*\*

The TARDIS study will close on **30 September 2017**. We still have outstanding data to collect and payments to be completed. Please take note of the following important dates in order to ensure full payment for your site is received:

## Outstanding Data: 19 June 2017

### Closedown

- ◆ WPD040 forms to be completed
- ◆ All paperwork should be anonymised by blanking out patient identifiers using a black marker pen
- ◆ All SAE's should be signed and dated by the PI

### Outstanding Scans

- ◆ We require copies of all radiology scans undertaken from onset to day 90.
- ◆ Scans can be uploaded, sent on CD to the trial office or passed to coordinators during visits.
- ◆ Please contact Mark or Vicky if any assistance is required.

### Blood Samples

- ◆ Yvonne Smallwood will be in contact with you to arrange the collection of your blood samples.
- ◆ Please forward any outstanding logs for bloods still to collect as soon as possible.
- ◆ Please ensure all bloods are labeled correctly using a cryoware label and pen. We are receiving a number of samples with labels which have fallen off and the ink has been smudged. Samples which we cannot identify are destroyed, which is a shame when you have worked so hard to collect them.

### Data Queries

- ◆ The coordinators are in the process of completing all remaining data queries.
- ◆ Please attempt to resolve any outstanding queries by responding to your coordinator's emails promptly.

## Outstanding Invoices: 31 July 2017

In order to ensure that any outstanding payments are made before the end of the trial, all invoices must be received by this date. Any invoices either not confirmed, or received after this date will not be paid.

*Thank you for your continued participation and cooperation in  
bringing TARDIS to a close*
